

# CREDIT ELEVATION 101: Understanding, Disputing, and Growing Your Credit the Noble Way

At **Noble Credit Consulting LLC**, we believe your credit is more than a number—it's a reflection of your journey, discipline, and growth. Whether you're building from scratch or bouncing back from setbacks, understanding your credit is the first step toward true **financial elevation**.

---

## Step 1: Learn What Makes Up Your Credit Score

Your credit score is like a financial report card built from five key factors:

- **Payment History (35%)** – On-time payments are the single biggest factor in your score.
- **Credit Utilization (30%)** – Keep balances under 30% of your credit limits.
- **Length of Credit History (15%)** – Older accounts help you look more reliable.
- **Credit Mix (10%)** – A healthy blend of cards, loans, and accounts matters.
- **New Credit (10%)** – Limit unnecessary credit inquiries to protect your score.

Understanding these elements helps you take charge of your credit health and make smarter money moves every month.

## Step 2: Understand How Disputes Work—and What “Credit Elevation” Really Means

When errors or outdated items appear on your credit report, you have the right under the **Fair Credit Reporting Act (FCRA)** to dispute them.

But at Noble Credit Consulting, we take it a step further with what we call **Credit Elevation**—a holistic approach that combines education, accountability, and expert guidance.

Our Credit Elevation process includes:

- Reviewing your reports from all three bureaus
- Identifying inaccurate or unverifiable items
- Disputing with precision and legal backing
- Empowering you with tools to build and sustain strong credit

This isn't just about deleting items—it's about **transforming your financial foundation**.
